

EXPERIMENT 14 : Agreement Checking in Sentences

Aim: To create a Python program to check subject-verb agreement based on Context-Free Grammar rules.

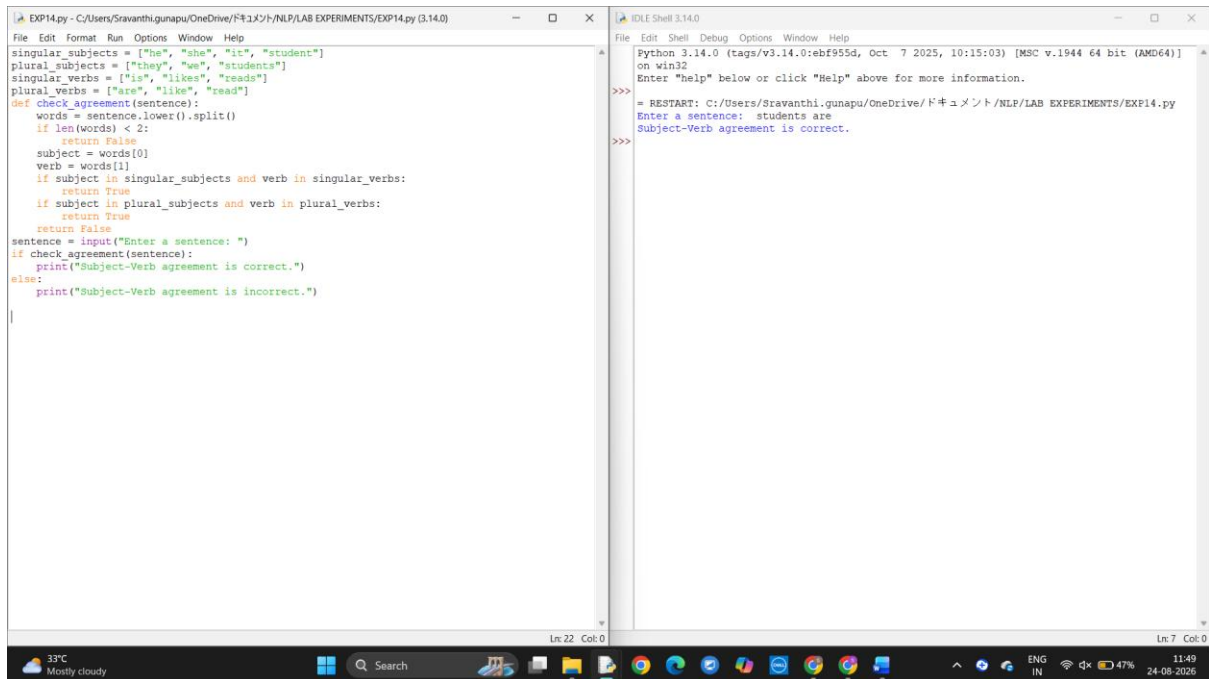

Program:

```
singular_subjects = ["he", "she", "it", "student"]
plural_subjects = ["they", "we", "students"]
singular_verbs = ["is", "likes", "reads"]
plural_verbs = ["are", "like", "read"]

def check_agreement(sentence):
    words = sentence.lower().split()
    if len(words) < 2:
        return False
    subject = words[0]
    verb = words[1]
    if subject in singular_subjects and verb in singular_verbs:
        return True
    if subject in plural_subjects and verb in plural_verbs:
        return True
    return False

sentence = input("Enter a sentence: ")
if check_agreement(sentence):
    print("Subject-Verb agreement is correct.")
else:
    print("Subject-Verb agreement is incorrect.")
```

Output:

The image shows a screenshot of a Python IDE with two windows. The left window, titled 'EXP14.py', contains a Python script for checking subject-verb agreement. The script defines lists for singular and plural subjects and verbs, and a function 'check_agreement(sentence)' that returns a boolean. It then prompts the user to enter a sentence and prints the result.

```
EXP14.py - C:/Users/Stravanthi.gunapu/OneDrive/ドキュメント/NLP/LAB EXPERIMENTS/EXP14.py (3.14.0)

else:
    print("Subject-Verb agreement is incorrect.")
|
```

The right window, titled 'IDLE Shell 3.14.0', shows the execution output. It displays the Python version, the file path, and the results of the program's execution for the input sentence 'students are'.

```
IDLE Shell 3.14.0
Python 3.14.0 (tags/v3.14.0:ebf955d, Oct 7 2025, 10:15:03) [MSC v.1944 64 bit (AMD64)]
on win32
Enter "help" below or click "Help" above for more information.
>>> = RESTART: C:/Users/Stravanthi.gunapu/OneDrive/ドキュメント/NLP/LAB EXPERIMENTS/EXP14.py
Enter a sentence; students are
Subject-Verb agreement is correct.
>>>
```

The Windows taskbar at the bottom shows the system clock as 11:49 on 24-08-2026, with a battery level of 47% and the language set to English (IN).
